MONITORING

A DIVISION OF RAPID RESPOSE MONITORING

## We put a face on medical monitoring

With Life Safety's next-generation of medical monitoring technology, your customers need never feel alone.

Our team of SIA-Certified EMTs provide unparalleled performance, and are "always there" to dispatch emergency services and provide dealers with detailed signal activity reports.

Utilizing industry-leading technology, speed and expert training, each aspect of our infrastructure, operations and technology is multi-redundant assuring uninterrupted service. You and your customers can always be confident that LifeSafety Monitoring™ is always there.

JOINING EXCLUSIVE TECHNOLOGY WITH UNSURPASSED SERVICE

## PROFESSIONALLY CERTIFIED OPERATORS

All our operators are EMT certified, have earned an AS Degree or its military equivalent, passed background investigations and drug testing, and earned SIA certification following the most rigorous training in the industry. Bi-lingual operators are always on duty.

## ADVANCED TWO-WAY VOICE TECHNOLOGY

Exclusive to LifeSafety Monitoring™, the MediPendant™ by Medical Alarm Concepts™ is the world's first two-way voice speakerphone pendant, allowing subscribers to speak with responding operators even in remote areas or outside the premises. In addition, we support the latest products from Visonic® and Linear® systems.

## EXPERIENCED, SECURE AND FAIL-SAFE

LifeSafety Monitoring™, located in a multi-redundant, fail-safe and award-winning facility, is founded on 17 years of medical monitoring and Two-way Voice experience. Our monitoring services are uninterrupted, secure and exceptionally reliable.

## EXTENSIVE DEALER CONNECTIVITY

VPN Dealer Access and our proprietary Account Management options are found nowhere else, and they can be used in the office or on the job to update optional medical information and other account details.

## DEALER AND TECHNICAL SUPPORT

With dedicated Account Executives and personalized Technical Support, our dealers are never alone in resolving customer issues. And our Answering Services for dealers keep the lines of communication open between dealers and subscribers at all times.
